

The Largest Vehicle Transport Network Throughout the U.S. and Canada

About Cars Arrive Network

With more than 4,500 registered carriers representing over 30,000 trucks, **CarsArrive** is the largest provider of automated vehicle transport services in North America. We've been providing transport solutions to dealers, financial institutions and OEMs for more than 10 years.

Why CarsArrive?

- Real-time web-based GUI with report generation
- Centralized automated supply chain dispatch and accounting
- 24/7 tracking and delivery notification solutions – GPS integration for carriers
- Full liability and insurance protection – \$8M aggregate
- Transparent end-to-end transport management
- Guarantee every transaction for both carrier and shipper

"**CarsArrive Network** has streamlined our operations tremendously. Keeping track of our vehicle moves is far easier than it's ever been and we appreciate the real-time analytics and customer support they provide. Moving to CarsArrive has reduced our average transport times by a third, lowering our inventory costs and improving our bottom line. Switching to CarsArrive is one of the best decisions we've made."
