

INCREASE EXPOSURE, TIGHTER TURNS

A CONVENIENT WAY TO TURN WHOLESALE INVENTORY INTO ONLINE LISTINGS

Export your inventory to ADESA and you're just a click away from making your aged or trade-in units available to thousands of active buying dealers. "Partner Assisted Listing Service" (PALS), and has partnered with the leading online vehicle listing, merchandising and marketing companies to receive your aged and trade-in wholesale inventory and pictures automatically.

HOW DOES IT WORK?

1. Ask your inventory management partner to export your inventory to ADESA. Or we will take care of it: Contact your ADESA dealer sales rep or send us an email at accountsupport@openlane.com.
2. Once all information is provided to your inventory management partner, they will set up the export to ADESA.com. Your cars will then be automatically loaded to your pending tab. Please note: these requests can take up to 24–48 hours.
3. **Log in** to ADESA.com and navigate to the **Sell dropdown menu**. Click the **Pending** category to access each vehicle and set the wholesale pricing. Click on **Edit** to review or make changes to your listing. When complete click the **Release to Auction** button to release the unit to the auction.

FOLLOW THESE TIPS TO PROTECT YOUR REPUTATION AS AN ONLINE SELLER

- List units with the correct VIN, options and mileage.
- Accurately note any damage, including prior damage that's been repaired.
- Add pictures of the damaged items, so buyers know what they are getting.
- Avoid double-sold units. Once a bid meets your reserve, remove the vehicle from your "available for sale" lot and lists.
- If you have a vehicle with the title absent, make sure the vehicle is listed that way.
