WHAT'S NEW?

Log on to ADESA.com to check out these recent improvements.

WATCH LIST

Save vehicles from Run List to Watch List

Now it's even easier to save vehicles to your Watch List from a run list: Just click the teal Watch List button **+ WATCH LIST** for each vehicle of interest.

Watch List vehicles can be conveniently accessed from ADESA.com and the Marketplace and LiveBlock mobile apps.

BAR CODES

Now appearing on Run List and Watch List printouts

When you print a run list from ADESA.com, the bar codes will now automatically print.

Scan the bar code with the Marketplace mobile app or other third-party smartphone apps to access vehicle information and history.
